It is the very Mill which every Farmer and Stock Raiser should have; t will crush from 8 to 10 bushess Corn and Cob per hour, with one horse; is easily fitted up and managed; weighs 340 hs., and as all contact of the grinding surfaces is prevented, will last any farmer an ordinary lifetime. I speak thus of its durability, because the same has been fairly tested in the old Bark Mill. Who

for one month, and if it don't give complete satisfaction, to return it! If there be any man thus disposed, let him n w speak. Satisfaction is warranted in every case, or the money will be refunded. The Crusher can be attached to horse water or steam power, which renders it the most convenient Mill south of Mason's and Dixon's line. All other crushers now in the South require too much power, or will soon wear out. According to THE LAWS OF NATURE,

a Corn and Cob Mill which admits of a lateral or wabbling motion will, nece sarily, soon wear out; all other Cruston are amenable to this grand edication, and the Proprietor DARR not dispute it. In the construction of 'young America," I have carried power, and I have straticities I have ned friction, and I chantenon one wond to the contrary, I have prevented a wabiting interal trotion, and all compelled to acknowledge it, therefore, I assert that it is lar uperfor to any other Mill. If you choose you may send six dozen bottles Hair Restorative, I think I can sell it. It has worked Miracles in this place. I sold a man six \$1 bottles, that was bald, and it fetched new hair out all over his head.

It is now a dark brown, (the original color) smooth and glossy. The only application I have made to it has been the Hair Restorative prepared by you, and which from the result in my own case, i can most cordially recommend to others. Respectfully Yours, EDWARD WOLCOTT.

HAIR RESPONDENCE—In our columns to-day will be found Prof. Wood's advertisement of the above article, to which we call attention. What it has done we have witnessed upon several of our acquaintances in St. Louis. Hair once grey met our view, black or brown, as the case might be, being the color of early manhood, and as fine and glossy as silk, and that without any other application than the Restorative. If it has done this open others, will it not do the same for any of our readers, whose "frosty brows" were once like the "raven locks" of Lockiel's warlike chief, if they will try it? It entirely cleanues the head of dandruff, and with one mouth's proper use will restore any person's hair to the original youthful color and texture, giving it a healthy, soft and giossy appearance, and all this without disco'oring the hands that apply it, or the dress on which it drops.
